Projects

Fitnessso • Fitness tracking website

HTML - CSS - JavaScript - PHP

- Built a responsive multi-page site with clean UI and maintainable code
- Integrated PHP backend for authentication and session management.
- Structured user data storage for metrics like weight, age, and workouts.

Ma7ali • Full-Stack POS SPA

HTML - CSS - JavaScript - Firebase

- Designed and developed a full-stack POS PWA for inventory, sales, and customer management.
- Implemented multi-currency support, advanced filtering, and PDF report generation.
- Built dynamic dashboards with interactive charts and responsive layouts for tablets and mobile.

3legant • E-Commerce Website

CSS - JavaScript - TW - React - PHP

- Implemented pixel-perfect UI from a complex Figma design.
- Developed flexible, multi-shop routing and category structure for clothes, furniture, electronics and more.
- Built order, cart and account management features with modular and future-proof architecture.

Additional projects: Quizo (Windows App)
